NOTIFICATION OF CONDITION SURVEY PURSUANT TO P&I RULE 30

Pursuant to Rule 30 of the Association's P&I Rules, we have required a survey and inspection of the above vessel. The purpose of this survey and inspection is to enable the Association to act in accordance with its Rules and Articles to assess premium, mutuality and risk, and to impose any variation in or limitation of cover which it may in its discretion decide in the light of any information revealed by the survey and/or inspection.

Nothing said, seen or done by the surveyor or advice given prior to, during or after the survey and/or inspection shall be taken as in any way derogating from the Members' responsibility for the safety and seaworthiness of the vessel and its mandatory compliance with any classification, statutory, flag State, or port State requirements or any other issues going to the safety of the vessel, its crew, cargo, and any other person, places or entities which may be affected by the operation of the vessel.

No act, omission, course of dealing, forbearance, delay, indulgence or conduct of the Association arising out of or in connection with the survey and inspection or the findings or recommendations thereof shall constitute any admission or proviso that the Association waives, varies or modifies its rights under its Rules and Articles in any way whatsoever. Neither The North of England P&I Association Limited or its officers, employees, servants or agents shall in any circumstance whatsoever be liable for the negligence or recklessness of the surveyor appointed to carry out this survey and inspection.

The Master of the vessel and surveyor must sign below to confirm that they have read and understood the contents of this notice before commencement of the survey and inspection.
