GENERAL SITUATION

This circulation is primarily intended for attention of P&I Clubs executives and Members of P&I Clubs, who operate vessels, trading in the Black Sea and Azov Sea.

LATEST DEVELOPMENTS

Apart from such dramatic development of tension in relations between Russia and Ukraine till now we do not observe any impositions to a commercial shipping in the ports of South Russia.

To summarize the current situation we confirm that:

- All Russian Black Sea and Azov Sea ports are operational without restrictions;
- All terminals within the mentioned Seas are working as regularly;
- No special requirements exist for the trading vessels, calling Russian ports;
- No ports of Russia are under blockade of Russian Navy;
- For the ports of Temryuk and area to the North of the Terminal of Kavkaz (Azov Sea) the following warning has been issued on 24 February 2022 for all vessels:
