

CSO ALLIANCE

SECURITY THROUGH COMMUNITY

The Maritime Security World

- 120,000+ Maritime Assets
- 12,000+ Company Security Officers
- \$12.5 Billion Annual Maritime Security Investment
- 2,000,000 Maritime Employees

The Threat

- Maritime crime is well organised, rewarded and constantly evolving
- CSOs have no organised community for exchange of views and professional development
- Information exchanges are inefficient and costly

Your Alliance

A global, members-only risk management platform for all shipping sectors to drive best practice and fight organised crime.

When CSOs meet, they exchange ideas and information, ultimately improving their understanding of the true risks faced by their crews. This leads to the right equipment and services being procured to better defend ships, crews and cargoes.

Our online CSO community manage the security of over 6,000 ships.

We also have CSOs from the offshore platform and supply craft sector. We have Cruise Ship, Super Yacht and Fishing Fleet CSOs, proving the platform delivers on CSO needs across all shipping sectors.

Proud to be working
with BIMCO

1 PROVIDE INFORMATION

Real time port and cargo crime reports, incident and attacks at sea

Expert observations

Latest maritime news

Geospatial mapping

Interactive database

2 DEVELOP OPINION

CSO Chatter

CSO Groups

Online Conferencing

3 CREATE COMMUNITY

CSO Directory

CSO Events

CSO Suppliers

4 BUILD ALLIANCE

Drive best practice for CSOs

Instant access to verified data

Mutual assessment of risk

Networked with military and civilian crime reporting centres

PROVIDE: INFORMATION

The primary goal of the alliance is to deliver real time in port and at sea incident and attack reporting. Using state of the art geospatial mapping tools we can immediately capture CSO peer group review. The platform captures every aspect of incidents, including multimedia elements which are then instantly shared with the rest of the community.

Our data is gathered from a wide range of credible sources including military, open source and PMSCs. Additionally, fleet CSOs can forward or upload information directly from their Captains. Our crime report function ensures efficient, accurate data capture - helping reduce the number of unreported incidents. This delivers a better understanding of the maritime security and trading environment.

A powerful search tool can drill with one click into every file on the platform and a statistics section has been crafted to help develop quick insights into key trends.

A bespoke news feed is dedicated to CSO interests with a library of relevant background information.

DEVELOP: OPINION

Although numbering some 12,000, CSOs are individuals and no existing network offers the opportunity to work together and create a new dynamic. The alliance's unique CSO Chatter function allows CSOs to debate key issues and challenges in a secure online environment.

The platform also has a growing number of Groups. This is an educational area with a plethora of online tools which allow thinking and learning to be shared. Formed by members, these can be made private, such as a single company's many CSOs, or open to the member CSO community in order to discuss the topics more widely.

CREATE: COMMUNITY

The community CSO Alliance builds has the ability to challenge inefficient or out-dated maritime security practice and champion excellence for those it serves. The membership directory provides various tools to allow internal communication and shared learning, with key industry supporters also providing content. The alliance will help facilitate CSO-only meetings and events around the world.

An integral part of the alliance is the select group of suppliers with whom we work - these third parties provide the vital funding needed to keep CSO membership inexpensive and ensure we deliver first rate content on the platform.

BUILD: ALLIANCE

Our ambition is to bring together the wider shipping community through the unique platform that is CSO Alliance. We are building a trusted alliance, which delivers exceptional information for its members and constantly innovates through the interactions it propagates.

Ultimately, these interactions will save CSOs time, their companies money, ensure better mutual assessment of risk and raise the stakes in the fight against organised crime.

BIMCO are extending support in a range of areas to develop the service and accelerate the roll out to CSOs throughout their membership.

COMPANY SECURITY OFFICERS: JOIN NOW

We are committed to providing excellent value for our members, with a low cost barrier to entry of joining the alliance:

Company Security Officers

Any CSO can join for a fixed annual membership fee irrespective of the fleet size. This low fee is only possible with the support of our Partners.

Partnership Opportunities

Matching partner solutions to CSO needs.

Profiled Supplier: An exclusive group of only thirty vendors with a blend of online multimedia and marketing collateral at the very core of the delivery.

CSO Workshops: Closed door CSO-only workshops.

Listed Supplier: Join a CSO recommended vendor list.

Newsletter: Monthly newsletter sent to CSOs and management.
