## **ELECTRONIC (PAPERLESS) TRADING SYSTEMS**

### **Electronic Shipping Solutions, Bolero International Ltd, E-title Authority Pte Ltd**

This Circular informs Members of the approval by the International Group of P&I Clubs (the Group) of the E-title solution. Members will recall, as reported in Circular 2010/026 of 13 September 2010, that until February 2010 the Rules of all of the Group Clubs specifically excluded liabilities in respect of the carriage of cargo under all electronic, i.e. paperless, trading systems to the extent that the liabilities under such systems would not have arisen under a 'normal' paper system i.e. one using transferable paper documentation.

From 20 February 2010 liabilities arising in respect of the carriage of cargo under such systems were covered provided that the system had first been approved by the Group. The first two systems approved by the Group were those administered by Electronic Shipping Solutions (more specifically the version referred to as DSUA 2013.1) and by Bolero International Ltd (more specifically the Rulebook/Operating procedures September 1999.) Both those two systems continue to be approved. In addition the E-title solution can now be added to the list of approved electronic i.e. paperless systems.

E-title is a secure mechanism focusing exclusively on title transfers, complementing existing web-portal services offered by shipping lines, logistics operators and trade facilitators. The solution is supported by a legal framework to facilitate electronic exchange of Bills of Lading and waybills, removing the need for a paper Bill of Lading. Further details can be found on the company's website – <http://www.e-title.net/>. The legal documentation associated with the use and operation of the e-title solution is the Electronic Title User Agreement (version 1.2). This document has been extensively reviewed by the Group.

Exclusions of cover under Group Club Rules relating to the carriage of cargo will of course continue to apply in respect of ESS, Bolero and E-title in the same way as for paper systems. These exclusions include discharge at a port or place other than the port or place provided for in the contract of carriage, the issue / creation of an ante or post-dated electronic document / record, and the delivery of cargo without the production of the negotiable electronic document / record, which in the case of an approved electronic trading system will mean delivery of cargo other than in accordance with the rules of that trading system. Further information can be obtained from the [IG's Paperless Trading FAQ's](#).
