

## INTERCARGO PRF LIST

### INFORMATION ON PORT RECEPTION FACILITIES PROVIDED BY INTERCARGO

In document MEPC 65/10, submitted by Liberia, the Marshall Islands, Panama, ICS, BIMCO and INTERCARGO on 8 Mar 2013, 52 ports/terminals in 18 countries/regions were covered with 25 ports identified to have a form of PRF for zinc, lead, copper (it should be noted that some ports were included more than once as they provided reception facilities for more than one type of concentrate cargo); some 40 ports were reported as not providing such PRF.

The attached list now covers 204 ports/terminals in 55 countries/regions, 181 ports were reported by bulk carriers with difficulties in finding adequate port reception facilities for HME cargo residues and for hold washing water with HME substances, 23 ports were affirmed as having adequate HME residue PRF.

No.	Country		Port/Terminal	No. of reports	PRF for HME Cargo residues	PRF for washings with HME substances
1	Algeria	1	Algiers	2	None	None
		2	Oran	3	None	None
