

Safe Work

Protective Equipment

Safe work is North of England's loss prevention initiative to promote good practice and safe systems of work on board ship.

Safe work requires the seafarer to use personal protective equipment that is appropriate to the task to be performed.

Safe work means that seafarers should be competent and properly trained for the tasks to be performed.

Safe work means that seafarers should take responsibility for their own safety and the safety of others.

Safe work practices will reduce the number of incidents and accidents.
